In the land of old and new  
Katy's friends are famous too  
In the land of the Rising Sun  
Katy's fan mail weighs a ton  
Katy Keene in a rickshaw gay  
Sees Japan by the light of day  
Katy's friends look up in awe  
At the Buddha large and tall  
When the moon shines upon the hill  
They all get their biggest thrill  
Dim and dark is the night  
Until the fireworks make it bright  
Fireworks and pretty fans  
Are the symbols of Japan  
Katy hopes they could longer stay  
In this land of far away  
But the days go by so fast  
Finally they must leave at last  
With a tear in their eyes  
They all bid Japan good-bye

**New, Richly-Bound, Matched Library Volumes Use Everyday Situations to Teach Science, Business, Cultural and School Subjects; Assure Complete Mastery for Faster Job Advancement; Better School Grades, Richer, Fuller Living—In Just 15 Minutes a Day!**

Now—the famous, proven **MADE SIMPLE** method offers you an education worth hundreds of dollars for pennies a day! Complete practical instruction in science, business and cultural subjects that you use every day for the children in school, mother at home, dad in his work and everybody in all their social contacts.

You can master these subjects in as little as 15 minutes a day, in weeks instead of years, with these books that are recommended by parents and noted educators for all age groups.

**Learn Whenever You Want—Like Having Private Instructors In Your Own Home**

This **MADE SIMPLE SELF-TEACHING** set is the only encyclopedia that makes important subjects part of your general knowledge instead of having to look in books to solve every problem. It covers practical, useful subjects in everyday language. It's like having private instructors in your own home. Learn at your own pace. No outside work, nothing else to buy. The books start from the beginning, assume no previous knowledge and lead you quickly and carefully through the entire subject. Prepared by experts for adults working without supervision, they also perfectly supplement classroom texts, which contain confusing technical language.

**Beautiful Library Volumes  
Perfect for Learning, Brush-Up,  
Permanent Reference**

Whether you want to learn for the first time, review subjects you forgot or use for ever-ready reference, you could find no better set or price. These handsome 7¼ x 10½ inch, 24-carat gold imprinted, matched library volumes are not digests or outlines. Every point is made absolutely clear by illustrations

and simple step-by-step explanations, using everyday situations. No half-answers to confuse you, no cross-references to make you use several books to get information. All the books teach you naturally, without memorizing long lists of rules.

**Complete Explanations, Simple Illustrations Make Every Point Clear—No Previous Knowledge of the Subject Required**

Here's how complicated subjects are **MADE SIMPLE**. In **PHYSICS MADE SIMPLE**, you are shown this simple home experiment, which costs nothing. Hold one edge of a letter paper against your chin, just below lower lip, with the paper hanging over and down. Blow above the paper and it will rise as if pulled up in the air stream. This simple principle makes airplanes fly and teaches us to make moving objects move quickly and easily. Other books give you Bernoulli's Law, molecular action and other confusing terms. By the time you got to the experiment, if there was one, you wouldn't understand it. Here you read a simple explanation, do the experiment and then learn the technical terms, so you learn naturally, by doing, without memorizing anything. This has worked for many people who thought they were more hopeless than you may think you are.

You would pay many times the price for much less beautiful and useful encyclopedias. But these books, with sample military and civil service tests, hundreds of illustrations, hundreds of safe, easy home experiments, thousands of pages of clear, concise, valuable instruction and self-tests with answers in the back, will be **USED, ENJOYED** and **ADMIRERD** by all your family and friends.

Now  
only a few  
pennies a day!  
Equal to  
hundreds of  
dollars worth  
of School
